I, Al Setikas make the following statement freely and voluntarily:

On April 29, 2015, after noticing a broken lightbulb and damaged screen frame, drove to Wyckoff PD to report evidence of a potential break-in attempt at my home located at [REDACTED]. The dispatcher took my address and asked me to go back home and wait for an officer. I returned home immediately and saw the officer pull up in front of 622 Lowling Rd facing into traffic across the street from my address. I then went to the driveway to wait for the officer to turn around and pull into my driveway. After a few minutes I walked toward the front yard to see what was taking so long and from about 30 feet down my driveway saw and heard the officer fire his gun several times. I then heard the dog yelping and ran back down the driveway to check

on my family. Once they were okay I ran back to the front and yelled to the officer that he was at the wrong house. He was visibly upset. My mother in law also came out of the house and started to yell. Other officers then arrived at 622 Larling so we returned to our property. Lastly, a Wyckoff Detective (Joe?) came to investigate the potential break-in evidence. I relayed some of these same facts to him at that time as well.

From my position I could not tell which side of the fence the officer was standing but he was in what I would describe as a typical shooting position.

Voluntary Statement

Voluntary statement of: FRANK T. MUSCARA Date of Birth: [REDACTED]  
(First Middle Last)

Address: [REDACTED]

Telephone: [REDACTED]

Cell Phone: [REDACTED]

Given to: \_\_\_\_\_ Date: 5/1/65 Time: 10:42

I, FRANK T. MUSCARA make the following statement freely and voluntarily:

I FRANK T. MUSCARA witnessed the incident at 622  
Lanline Road on Tuesday, April 20 15 with officer Terrica.  
I was proceeding on Lanline road heading towards Parkhill  
Lakes Road when I saw a police explorer parked in my  
driving lane. I slowed down because I had to move into  
the oncoming lane to make sure no vehicles were coming  
directly at me. As I slowed down I looked all around  
and saw no individuals on either side of the street. As I  
passed the police vehicle I looked to the left to see the  
police officer just opening the gate to the <sup>rear of the</sup> property. The officer  
was looking left and right before he opened the gate, he had  
no weapon drawn. The reason I slowed down was that I  
knew the police officer because my son went to school (High  
School) with him. I was going to say hello, but I did not  
want to interrupt him from his duties, I then drove away  
and heard no dog barking.

Continue on back, if necessary.
